Care Home Health

We bring professional and personalized health care home. The care provided by our competent, well-trained staff is available 7 days a week so you and your loved ones can be confident that the professionals who come into your home are highly skilled and trustworthy.

We collaborate with you, your family, referring physicians and members of your multi-disciplinary team, which includes nurses, therapists, social workers and home health aides, to create and implement a plan of care tailored to your individual needs. Our team approach is designed to provide you with seamless and consistent care as you recover at home.

Home Health Care

Is it right for *me*?

Home health care is for individuals who may benefit from skilled services while recovering from an illness, injury or surgery. It enables individuals to remain in the comfort of their own home or assisted living facility close to their loved ones.

Home Health Care may be right for you or your loved one if the following criteria are met:

- Need for either intermittent or part time skilled nursing care or therapy
- Are homebound and unable to get to the physician
- An individualized plan of care must be ordered and approved by the attending or primary care physician.

Our comprehensive services include:

- Skilled Nursing
- Physical, Occupational and Speech Therapies
- Medical Social Services
- Home Health Aide Services

A wide range of conditions and diseases can be successfully treated in the home setting, including:

- Stroke, COPD, Congestive Heart Failure and Alzheimer's
- Post-surgical care
- Complex wound care
- Medication monitoring
- IV Infusion Therapy
- Patient and Family Health Education
